

Arc Angels-Day 6

Our sixth Arc Angel is Wayne, an individual supported by The Arc NCR. Wayne has been a part of both the Supportive Living program and the Community Partners Program for many years.

Wayne is best known as the Community Partners News Reporter! He wakes up early every morning around 5:30 am to watch the early edition of news. Once Wayne arrives to start his day in Community Partners, he passes along important world and weather information to staff and his peers. In addition, Wayne regularly attends the Havre de Grace Senior Center, where he continues to educate and entertain his peers and has been featured on several flyers for Karaoke & DJ Day. Wayne's musical repertoire is also quite impressive, as it ranges from the golden oldies to more modern hits. Wayne enjoys making others happy every day in his news reporting. He is a shining star in and enjoy making people in the community smile!

The Arc NCR's Community Partners program provides many opportunities for individuals who are retired or in between jobs to give back to our community, such outings at the Havre de Grace Senior Center. Individuals also have the opportunity to take day trips and classes. Only a portion of The Arc NCR's funding comes from the state and government. This makes your generous support critically important to the success of our programs. Help us provide more community activities for people we support by donating to our organization at <https://arcncr.org/donate/online/>.
