

Arc Angels-Day 5

Our new Arc Angel is one of our top Direct Support Professionals, Yolanda Dockery. Yolanda has been supporting individuals with intellectual and developmental disabilities at The Arc NCR for over 26 years!

Currently, Yolanda supports an individual who likes to actively engage in the community. Yolanda promotes achieving this goal by encouraging and bringing her to multiple activities throughout the week. If there is an event going on in Harford County, the two of them are likely there enjoying their community. By supporting this goal, Yolanda ensures that the supported individual is provided social interactions, learns about new activities going on in her neighborhood, feels included in her community and is provided the opportunity to meet new friends.

In addition, Yolanda frequently communicates with her peers to make sure they also know about events around our community. She encourages groups to join together to make it even more fun! The Arc NCR is very fortunate to have Yolanda on our team and we thank her for continuing to support our mission each day.

Our Direct Support Professionals are the bedrock of our organization. The Arc NCR cannot continue to hire and retain outstanding Direct Support Professionals like Yolanda without the support of our generous community! Only a portion of The Arc NCR's funding comes from the state and government. This makes YOUR support so critically important to the success of our programs, including our ability to hire support staff who truly promote our mission.
