

Votasha is a stand out Community coach and an invaluable member of the Community Partners Team. Mrs. Harris always has creative ideas and is willing to share them with not only her group, but the rest of the team as well. She is extremely reliable and flexible to the needs of the program and the individuals that are part of the Community Partners Group. One of Votasha's greatest strengths is building community integration within her group. In addition, Votasha loves to cook so she has now become the unofficial leader of the cooking club and always has top notch recipes to share with everyone. When it comes to arts and crafts, Votasha always has amazing creative ideas that make all participants feel like true artists. Votasha has also developed an amazing relationship with the Edgewood Center. The Edgewood Center has allowed us to cook and hold larger group activities in a safe community setting. Votasha is always willing to help out when she can from doing additional routes to covering one on ones. Most importantly Votasha has developed an amazing bond with the individuals in her group. For all of these reasons, Votasha Harris is a true Arc Angel and a great example to all staff members.
