Sponsor Family Support Respite Days

with the Anna and James Lambdin Family Support Institute

It can be especially hard for families to navigate the best life possible for their children with differing abilities, while also trying to navigate their own. This time of respite is a much-appreciated support. Our Family Support Services team along with our facility dog, Honor support families and youth in navigating and planning the best life possible.

Family Support Services sponsorship packages offer an exceptional opportunity to gain exposure throughout the local community and to show your support for children of ALL abilities. Sponsors are eligible for recognition on The Arc NCR's website and Social Media.

Be there for families in our community and be recognized for it.
